Joyriders Snowmobile Club

January 2007 Snow News & Minutes

President's Corner

Here I am sitting at my desk on January 2, 2007 and watching the grass turn green. Well maybe not quite that bad, but after a weekend of rain that took away the little snow we had it sure is depressing for a person like me who really loves snowmobiling on our trail system. I am requesting that all members out there put on your snow dance shoes and THINK SNOW.

But now for the good news, I have not seen as much excitement and interest in our club as we have this year. We have a record 15 new members join our club bring our total membership over last year by 6 members. Attendance is up at our meetings and some excellent work has been done on our trails this year. I want to say a special thank you to the members who attended our last meeting and were involved with marking of trails and the two new bridges built. Each year our trails just keep getting better, and wait till you see our new welcome signs on our trail system next year. I think you will be very proud to be a member of our club.

Some more good news snow or no snow is our annual Dinner Ride Event which will be held next month. In addition to just having fun and a great meal at the Round Roof Supper Club we also use this event to give some thing back to our community. This event raises money for our local Rescue Squad. We appreciate the services they provide and the equipment they purchased for rescue of snowmobile related accidents. See the details on time and location in this newsletter and come out and join in the fun.

A new website has been developed, and placed on-line for the Bagley & Brazeau Joyriders. Our new address is www.bbjoyriders.com and has a better layout with more functional links than the last one had. Navigation through the site is pretty straight forward, as there are links on the bottom of each page that will send you to and from other pages on the site.

We are working on this site to incorporate things like real time (or at least as close as possible) trail conditions. There is also a photo gallery that would be a great place for us to host pictures of the trails, camaraderie, and work that goes into making ours one of the best trail systems in the state. If you have any pictures please send them to me.
